

BRING YOUR OWN DEVICE (BYOD) POLICY

Parties

Employer: _____

Address: _____

Employee: _____

Effective Date: ____ / ____ / ____

Purpose and Scope

This policy sets the terms under which the Employee may use a personally owned phone, laptop, tablet, or other device (a "Personal Device") to access the Employer's email, files, applications, or other work systems.

Approved Devices

Only devices meeting the Employer's approved operating systems and specifications may be connected to work systems. The Employer may decline or revoke approval for any device at its discretion.

Approved Device Types: _____

Security Requirements

The Employee agrees to keep each Personal Device protected with a passcode or biometric lock, keep its operating system and security patches up to date, enable encryption where available, and install only the security or management software the Employer reasonably requires as a condition of access.

Minimum Security Standard: _____

Company Access and Monitoring

The Employer may access, back up, and remove company data and company-issued applications residing on a Personal Device, including through a remote wipe limited to company data. The Employer will not access, copy, or delete the Employee's personal files, photos, messages, or accounts.

Acceptable Use

The Employee agrees not to use a Personal Device connected to work systems for unlawful activity, to share company data with unauthorized third parties, or to circumvent the security controls described in this policy.

Reimbursement

Any reimbursement for business-related use of a Personal Device is limited to the amount and schedule stated below, if any.

Reimbursement Amount/Policy: _____

Data Ownership and Privacy

Company data accessed or stored on a Personal Device remains the property of the Employer at all times. The Personal Device itself, and all personal data on it, remains the property of the Employee.

Lost or Stolen Devices

The Employee must report a lost or stolen Personal Device that has been used to access company data to the Employer as soon as reasonably possible, so the Employer can remove company data from the device remotely.

Termination and Return of Data

Upon termination of employment, or upon request, the Employee agrees to allow the Employer to remove all company data, accounts, and company-issued applications from each Personal Device using the procedure below.

Data Removal Procedure: _____

Policy Violations

Failure to comply with this policy may result in revocation of the Employee's ability to access work systems from a Personal Device, and may be treated as grounds for discipline under the Employer's other workplace policies.

Employee Acknowledgment

By signing below, the Employee confirms they have read, understand, and agree to comply with this Bring Your Own Device Policy.
