

INDIVIDUAL CONTRIBUTOR LICENSE AGREEMENT

Parties

Project/Company: _____

Project Name/Repository: _____

Contributor Name: _____

Contributor Email/Username: _____

Effective Date: ____ / ____ / ____

Definitions

"Contribution" means any original code, documentation, or other material the Contributor intentionally submits to the Project/Company for inclusion in the project identified above. "Work" means the project's software and related materials that a Contribution is submitted to.

Grant of Copyright License

The Contributor grants the Project/Company a perpetual, worldwide, non-exclusive, royalty-free, irrevocable license to reproduce, prepare derivative works of, publicly display, publicly perform, sublicense, and distribute each Contribution and derivative works of it, under any license terms the Project/Company chooses for the Work, including open-source licenses.

Grant of Patent License

The Contributor grants the Project/Company a perpetual, worldwide, non-exclusive, royalty-free, irrevocable patent license to make, use, sell, and otherwise transfer each Contribution, for any patent claims the Contributor owns or controls that are necessarily infringed by the Contribution alone or in combination with the Work it was submitted to.

Contributor Representations

The Contributor represents that each Contribution is their own original creation, or that they otherwise have the right to submit it under the terms of this Agreement, and that submitting it does not violate any agreement with a third party, including any current or former employer.

No Obligation to Use

The Project/Company is under no obligation to use, incorporate, or maintain any Contribution, and may decline or remove a Contribution at its discretion.

Disclaimer of Warranty

Except for the representations stated above, the Contribution is provided "as is," without warranty of any kind, and the Contributor is not obligated to provide support, maintenance, or updates for it.

Retained Rights

This Agreement does not require the Contributor to give up ownership of their Contribution. The Contributor may continue to use, license, or distribute their own Contribution elsewhere, subject to any separate agreements that may apply.

Governing Law

This Agreement shall be governed by the laws of the State/Country of _____, without regard to its conflict-of-law principles.

Advisory Note

Copyright and patent assignments can carry meaningful legal and tax consequences depending on the size and nature of the contribution and the Contributor's own obligations to other parties. Both sides are encouraged to have significant contributions reviewed by a lawyer before relying on this Agreement alone.
