

LIVING WILL / ADVANCE HEALTHCARE DIRECTIVE

Declarant

Principal (Declarant): _____

Date of Birth: ____ / ____ / ____

Statement of Intent

I, the undersigned Principal, being of sound mind, willingly and voluntarily make this declaration to express my wishes regarding the medical care I want, or do not want, to receive if I become unable to communicate my own healthcare decisions — whether because of a terminal condition, permanent unconsciousness, or another condition that leaves me unable to participate meaningfully in decisions about my own care. This declaration states my own directions to my physicians, caregivers, and family. It does not, by itself, appoint another person to make decisions on my behalf.

Life-Sustaining Treatment

If my attending physician and at least one other qualified physician determine that I have a terminal condition, or am permanently unconscious, and I am no longer able to make or communicate decisions regarding my medical care, I direct that the following instructions be followed regarding the use, continuation, or withdrawal of life-sustaining treatment, including mechanical ventilation, dialysis, and cardiopulmonary resuscitation:

My Directions Regarding Life-Sustaining Treatment: _____

Artificial Nutrition and Hydration

Artificially administered nutrition and hydration (such as feeding tubes and intravenous fluids) are addressed separately from other life-sustaining treatment because they involve distinct medical and personal considerations. My directions on this point are:

My Directions Regarding Artificial Nutrition and Hydration: _____

Pain Relief and Comfort Care

Regardless of any other direction in this declaration, I direct that I be given medication and other care needed to keep me comfortable and to relieve pain, even if doing so may hasten the

moment of death, unless I state an exception below:

Exceptions (if any): _____

Organ and Tissue Donation (Optional)

My Wishes Regarding Organ and Tissue Donation: _____

Revocation of Prior Directives

I revoke any prior living will or advance healthcare directive I may have signed. This declaration reflects my current wishes and remains in effect until I revoke or replace it in writing.

Signing and Witnessing Requirements

Most states require a living will to be signed in the presence of one or more disinterested witnesses, and some require or permit notarization instead of or in addition to witnesses. Many states also restrict who may serve as a witness — for example, excluding the Principal's healthcare providers, prospective heirs, or anyone named as a healthcare agent. Confirm the witnessing and notarization rules that apply where the Principal lives before relying on this document, and complete those formalities accordingly.

Governing Law

This declaration shall be interpreted under the laws of the State/Country of

_____.
